With a passion for patient care and data, Shine Clinical, an industry disrupter, makes practice life easier.

Find Patients

With our clinical system expertise, we make finding patients and their relevant data easy.

Review Patients

Our team of Clinicians, are able to individually screen each patient for inclusion on to the QOF register

Show Impact

Our real-time dashboards make progress clear, and highlight where resources can be focused to maximise patient care and revenue.

Here at Shine Clinical we offer services to take your practice to the next level! Helping free up valuable GP time to focus on patient care by offering services such as our ground breaking Annual QOF Prevalence Service, designed to help your GP practice stay on top of your QOF.

We don't just stop there. As well as helping practices by extracting potential missing patients within the clinical databases, we also provide you with an experienced Clinical Pharmacist to fully achieve your goals.

Not only does this result in increased year on year practice income, but also ensures clear patient care all year round.

Shine Clinical Annual QOF Prevalence Service is designed to help your GP practice stay on top of your QOF and improve your prevalence all year round.

The annual service is bespoke to your practice, providing you with a monthly refresh of tailored QOF searches with Clinical Pharmacist coding to ensure patients are not missed from the register.

Bespoke Tailored Services

Shine Clinical's complex searches and strict compliance to the latest QOF business rules, means you can be assured your practice is always working at its best.

With our bespoke services tailored to your practice, PCN and locality needs, we can design a service based around you.

Teaching & Training

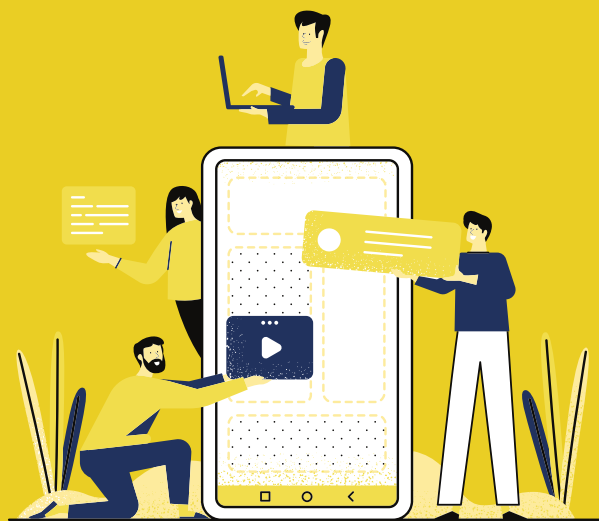

Low Osteoporosis prevalence? New coding team member?

Don't worry. Our Clinical Pharmacist team can upskill and train your staff. Before you know it you will have your very own in-house QOF experts.

Real-time Dashboards

Need a dashboard building to track your performance indicators?

We have worked with a number of practices to build their own practice specific dashboard meeting. Contact us today with your specifications.
